ISSUE # 36, AUGUST - OCTOBER 2010

Hello

We have a new addition to our household and her name is Gidgyt. She is a 1½ year old Pomeranian and Chihuahua mix that we found at the local shelter. It looks like she had puppies previously and was extremely malnourished. We are in the process of potty training and putting some weight back on her little frame.

She came to me in a dream nine days before meeting her. In the dream this little dog jumped on my lap and started lovingly nipping at my nose as she repeated, "I want to come home with you". I did not give her an answer as we already had our 2 dogs (Bushy and Tucker) and our cat (Tinkerbell). As much as it tore at my heart all I could do was love and hold her. Upon awakening, I mentioned it to my husband, Jeffrey, and we were not ready to expand our family.

Four days later Bushy became very ill. We took her to the vet and she had pancreatitis and kidney failure. We had a wonderful 10 years with her. She was our travel companion and also sat with me during telephone sessions. We were so honored that she chose to be a part of our lives and she will be dearly missed. "Thank-you Bushy for the service you provided and the unconditional love that saw us through our many adventures."

The other night Gidgyt was sitting in my husband's lap gently biting his nose and the dream came flooding back in. She was the one in my dream!!! Her color was different, although her energy was not. We felt she was a perfect fit for our family when we picked her out, this was just another validation. The shelter also found her running on a road called Bear Mountain Road and we live in Bear Valley Springs on Bear Mountain. The road was in a different town.

Jeffrey and I are both amazed at how Spirit has worked in our life over the years. We may not understand why something is happening, but in time, the truth is unveiled. In this case, our beautiful girl transitioned and another sweet girl was given life in a matter of 5 days. This was Universal Perfection. As emotional as it is, it was a blessing for all of us.

In closing, my wish is that we all look to see the blessings of any situation that is emotionally charged and be open to the possibility that a small miracle may be taking place.

with much Love

Diane

Shortly before she left us. We lost her earthly charm but gained another guardian angel.

First day home and happy in momma's lap

Your Fall Equinox is fast approaching and will bring superfluous energies. To stay focused and grounded during this time will be of benefit in preventing you from overreacting in self deliberation. It is the year of emotional unrest and this energy brings intensity to all whom require confronting rather than avoiding. Many will be faced with unseen circumstances and will learn the value of patience, tolerance and detachment.

Your political houses are stepping up their agenda's for the coming elections. Search for the truth behind the masquerades as there will be many to entice. We see the coming election as a race for the jewel which is the turning point for your civilization. Many groups are forming for commonality and expression of their civil rights and this will escalate in sheer volume over the next few years. Chaos flourishes until balance is attained.

Contamination is affecting all waters not just the oil ridden. Deep sea fish are salvable. Much bottled water is becoming bacteria laden. The bodies speak loud and clear when consuming that which is an irritant. Strengthen your immunity to resist bacterial viruses which will come in many forms from different sources. Upcoming new strains will appear temporary and some will remain lingering for scientific study.

As the Earth undergoes her transition so does the physical body. As the bodies evolve it will endure discomfort with many experiencing digestive difficulties. Water soluble foods are a benefit as well as enzymes, and protein is absolutely imperative for grounding. To ease discomfort would be to eat less food more often.

"We live in a time of transition, an uneasy era which is likely to endure for the rest of this century. During the period we may be tempted to abandon some of the time-honored principles and commitments which have been proven during the difficult times of past generations. We must never yield to this temptation. Our American values are not luxuries, but necessities – not the salt in our bread, but the bread itself."

~Jimmy Carter

My 2 Cents...

By Jeffrey

I figured that some of you are probably wondering what Tucker's real opinion is of the new gurrri. So I asked...

*WHAT GIRL? OH HER,
OHHHH... I HARDLY EVEN
NOTICED HER.*

**He prayeth best, who loveth best
All things both great and small;
For the dear God who loveth us,
He made and loveth all.**

Food for thought - MORAL INDEPENDENCE:

"Einstein once said "Great spirits have always found violent opposition from mediocrities. The latter cannot understand it when a man does not thoughtlessly submit to hereditary prejudices, but honestly and courageously uses his intelligence ..."

Contentment, internal peace, dominion over oneself, purity, compassion, affectionate words and consideration for friends are seven sorts of fuel which keep alive the flame of happiness.

Give not your heart over to anxieties.
