

ISSUE # 45, NOV 2012—JAN 2013

Welcome

FROM DIANE

It has been a busy year and I thank all of you for your support and love that I experience in each session.

Although I have been channeling for some time I am still amazed with how Spirit works in our lives, from the simplest request to the heartfelt request in which all are answered whether we realize it or not. Being impatient seems to be a real human trait. I have found in my own life through frustration with extreme anger that impatience is only the symptom of a deep-seated issue. Impatience is really born of control, fear and not believing in oneself. Our belief system is based on our experiences and what we have been taught. The knowledge and wisdom

attained through each venture gives us an innate sense of what truth is regardless of our perceptions. By peeling the layers of how we perceive life it allows us that deeper connection to who we truly are. Clarity is near to impossible when tunnel vision dominates.

- I learned that pushing the river uphill to get my way only backfired and the more I demanded the greater the lessons were.
- I learned that beating myself up created a spiral down to where all I saw was the negatives of life instead of the positives in each situation.
- I learned that displacing blame allowed me to run from my own issues rather than face them.
- I learned that unrealistic expectations of self and others were a direct sabotage of my movement forward.
- I learned to trust that every situation has a silver lining, you may not see it immediately but it will present itself in time.
- I learned that faith is "living" it not just talking about it.
- I learned that everything is temporary as long as you have breath there is growth.

In the movie "Forest Gump" Forest's Mom told Him, **"Life is like a box of chocolates you never know what you're gonna to get"**. With that said, enjoy the ride that is being offered and see the potential in every experience that is put before you.

Jeffrey and I wish you happiness in all that you do and that your Holidays are filled with peace and joy :-)

With Love....Diane

**The dawn is not distant, nor is the night starless;
love is eternal.**

~Henry Wadsworth Longfellow

WITH LOVE, FROM SERIONE

(Channeled by Diane)

This is a defining moment in your history where the masses of all nations are reaching across cultural lines to find commonality with each other in building autonomy. Many are willing to sacrifice for a cause that is perceived to be noble and humane. The hearts and voices are strengthening across the lands in an attempt to override dictatorship of all forms. As the collective balances their intentions you will see a world beginning to shift and shape itself for a higher calling.

As we have stated in past dialog your world is slightly tilted on her axis. The earth changes that have been occurring will uncover many geological facts, currently unknown to your scientists, in upcoming years. The science community at large will begin to take notice and study with factual diagnosis to determine the age of your planet, the evolution of its inhabitants and the philosophy to its relationship in the Universe. This will bridge the gap of old science to new science with a flourishing clarity that is indelible.

Many are wondering where their life is going and what will transpire next. You may feel like you are dangling from a tree unable to touch the ground, running in circles to nowhere or just believing that it is all a dream and when you wake up it will be gone. Transformations are occurring faster than the brain can comprehend. You are on a train that is picking up momentum and will continue to do so. It is part of the ecological changes that goes hand in hand with geological shifting. What we would say is balance your thoughts and emotions by riding the waves of uncertainty and knowing that it is temporary in the vastness of creation.

*We Wish You Peace of Mind
And Graceful Culminations

**When we quit thinking
primarily about ourselves and
our own self-preservation,
we undergo a truly heroic
transformation of
consciousness.**

~Joseph Campbell

**We are witnessing an
enormous shift of collective
consciousness throughout
the world.**

**We are at the precipice of
great transformation within
our culture and
government.**

~Zachary Quinto

My 2 cents...

Dear Friends, In this season full of Holidays, some of us will likely experience some excesses... Like:

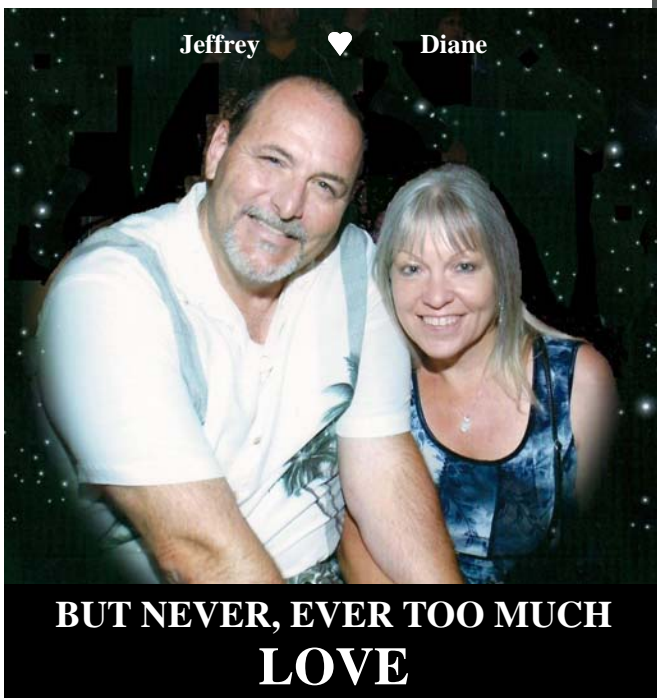

Come on honey,
there's a sale
at Penney's!

TOO MUCH SHOPPING, AND;

No thanks, saving
room for pie... Urp....
Maybe later.

TOO MUCH TURKEY;

**BUT NEVER, EVER TOO MUCH
LOVE**

*Happy Holidays, and a blessed
2013, to you all, and push the enve-
lope; see if you can ever have too
much love.*

TOO MUCH CELEBRATION...

News Flash!

As I am writing this on
Halloween Night, My son John
and his Love, Kelly, have
brought a great new soul into
the realm...
Welcome, Parker Phillips.
